Genentech BioOncology Co-Pay Card Program

We are committed to ensuring that all eligible patients have access to the therapies they need. That is why we created the Genentech BioOncology Co-Pay Card Program, a program that gives eligible patients help with their BioOncology product co-pay.

[Help patients get support](#)

How does this program work?

Your practice gives eligible patients a brochure with an enclosed Genentech BioOncology Co-Pay Card at the time the diagnosis is made and therapy is chosen.

Enroll your patients over the phone with Genentech BioOncology Access Solutions™ prior to their treatment. Before calling, be sure patients have completed the Patient Authorization and Notice of Release of Information and Patient Enrollment forms.

Your practice will receive confirmation of successful patient enrollment. The patient's co-pay amount will be reduced accordingly.

Genentech BioOncology Access Solutions

We work hard to make information you need about coverage and reimbursement easily available 24 hours a day.

Phone: (888) 249-4918

Hours: 6 a.m. to 5 p.m.
PST Monday through Friday
or 24/7 through our website.
